

Excursions and Exhibitions

The excursions and exhibitions supported the work within the three topics (Room 1, 2, 6) of the House of Women's History

1.

The exhibition of the Neolithia Foundation work took us into the sceneries of early matriarchal cultures in Malta and by that introduced us into the subject of Room 1 "The Cultures of European Early History as source of our political awareness".

2.

The "Matrons-Walk" to original places of huge matron's sanctions within the Rhineland introduced us into the subject of Room 2 "The Encounter of Cultures".

3.

The exhibition "Justitia is a Woman" exemplified our interpretation of women's history by following on the thread of justice throughout history.

4.

In our "Walk to the Monument" we gathered our thoughts on the fatal impact of fascism to our history and the one world.
